

26 May 2023

1007815|2023|April

Dear **Balakumar I,**

Congratulations!

We have made commendable progress with regards to Maveric 4.0 strategic priorities across customer engagement & growth, delivery impact & quality, competency development & scale, and new business acquisition. Our four business units have achieved the desired scale, we have established sales capability in Europe & US and achieved a CAGR of 21%.

This would not have been possible without the drive, commitment, care and integrity that you bring to work as well as in each and every customer interaction. Thank you.

I am excited to inform you that based on your performance review of your past contributions and the potential you hold, you have been promoted as **Software Engineer** and your compensation is being revised to **INR 4,00,000** per annum with effect from **01-Apr-2023**. Please refer Salary Annexure for more details. Your next performance review is due to happen in **April'2024**.

Looking into the future, the strategic priorities continue to remain highly relevant. In order to accelerate our progress, we have evolved a 3 layered operating model based on two principles. First, providing dedicated leadership to a given set of strategic priorities rather than leaders focusing across all the priorities. Second, expanding role of revenue, delivery and engagement leaders from single service to multi service.

While our deep domain knowledge, technical competencies, and customer-centricity have got us this far, successful adoption of our new operating model is extremely critical to achieve our strategic priorities and strengthen our multi service outlook and capabilities. Curiosity and collaborative spirit are key to making this model a success.

Counting on your support as always,

Regards,

Ratanesh Kumar Singh
Vice President
